

REMARKS/ARGUMENTS

Claims 1, 2 and 21 are pending. No claims are allowed.

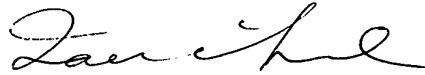

Claims 2 and 21 were rejected under 35 USC 112, second paragraph. The claims have been corrected.

Claims 1, 2 and 21 were rejected under 35 USC 112, first paragraph as lacking enablement in the specification. Applicants incorporate the Brief Under 37 CFR 1.192 previously filed in reference to this issue. Applicants treat the horses, they do not claim a cure. There is little doubt that the claimed antibody compositions would be effective in treating horses infected with *Sarcocystis neurona*. Applicants' assertions are supported by the Declaration Under 37 CFR 1.132 of record which provides *in vitro* data pointing to the effectiveness of the antibody compositions in horses. The assertions of the Examiner regarding lack of effectiveness of the claimed compositions must be supported by references teaching the lack of effectiveness. There is no such references of record. Reconsideration is requested.

MSU 4.1-526
Appl. No. 09/670,096
November 12, 2003
Reply to Office Action of 9/12/2003

It is now believed that Claims 1, 2 and 21 are
in condition for allowance. Notice of Allowance is
requested.

Respectfully,

Ian C. McLeod
